We have a rare opportunity to listen one of the most distinguished psychoanalysts of modern times, known for being one of the European psychoanalysts who has managed, to a large extent due to his superior knowledge of various psychoanalytic theories common to other parts of the world such as North or South America and others, to make “differences and similarities” a fertile ground for the growth of new perspectives and aspirations, hence a better knowledge of the complexity of psychic life. In addition to his

favorite and widely known topic on psychoanalytic empathy, the new book also brings novel ideas and concepts which we have an opportunity to meet through this seminar.

Early registration is open until the end of January 2020.

Official language of the seminar is English.

Number of places is limited.

To register please use the registration form in the attachment and apply via e-mail seminarmart2020@yahoo.com.

Looking forward meeting you in Belgrade.
